ELSEVIER

Accident Analysis and Prevention 36 (2004) III–X

ACCIDENT ANALYSIS & PREVENTION

www.elsevier.com/locate/aap

Volume 36, 2004
LIST OF CONTENTS

NUMBER 1

Publisher's note 1

Papers

Safety as perceived by wheelchair-seated passengers in special transportation services
Anders Wretstrand, Jan Petzäll and Agneta Ståhl 3

Measuring transport injuries in a developing country: an application of the capture–recapture method
Francisco Tercero and Ragnar Andersson 13

Neck strains and sprains among motor vehicle occupants—United States, 2000
Kyran P. Quinlan, Joseph L. Annest, Barry Myers, George Ryan and Howard Hill 21

Effectiveness of customized Victim Impact Panels on first-time DWI offender inmates
Denise R. Wheeler, Everett M. Rogers, J. Scott Tonigan and W. Gill Woodall 29

Road traffic injuries in an urban area in Mexico. An epidemiological and cost analysis
Martha Híjar, Armando Arredondo, Carlos Carrillo and Luis Solórzano 37

Motor ability: protective or risk for school injuries?
Rosa Gofin, Milka Donchin and Boaz Schulrof 43

The influence of alcohol, age and number of passengers on the night-time risk of driver fatal injury in New Zealand
Michael D. Keall, William J. Frith and Tui L. Patterson 49

Characteristics of low speed accidents with buses in public transport: part II
A.E. af Wåhlberg 63

Pedestrian injuries and vehicle type in Maryland, 1995–1999
Michael F. Ballesteros, Patricia C. Dischinger and Patricia Langenberg 73

The stability of driver acceleration behavior, and a replication of its relation to bus accidents
A.E. af Wåhlberg 83

Injury and risk-taking behavior—a systematic review
Cathy Turner, Rod McClure and Sandi Pirozzo 93

Improvements in medical care and technology and reductions in traffic-related fatalities in Great Britain
Robert B. Noland and Mohammed A. Quddus 103

Effects on road safety of new urban arterial roads
Astrid H. Amundsen and Rune Elvik 115

The alcohol-related accident risk in Germany: procedure, methods and results
H.-P. Krüger and M. Vollrath 125

NUMBER 2

Papers

Differences in male and female injury severities in sport-utility vehicle, minivan, pickup and passenger car accidents
Gudmundur F. Ulfarsson and Fred L. Mannering 135

Traffic safety assessment and development of predictive models for accidents on rural roads in Egypt
Khaled A. Abbas 149

Computerized coding of injury narrative data from the National Health Interview Survey
Helen M. Wellman, Mark R. Lehto, Gary S. Sorock and Gordon S. Smith 165

Corporate cost of occupational accidents: an activity-based analysis
Pall M. Rikhardsson and Martin Impgaard 173

Selecting exposure measures in crash rate prediction for two-lane highway segments
Xiao Qin, John N. Ivan and Nalini Ravishanker 183

An accident waiting to happen: a spatial approach to proactive pedestrian planning
Robert J. Schneider, Rhonda M. Ryznar and Asad J. Khattak 193

The effect of crash experience on changes in risk taking among urban and rural young people
Mau-Roung Lin, Wenzheng Huang, Hei-Fen Hwang, Hong-Dar Isaac Wu and Lee-Lan Yen 213

Effect of repeal of the national maximum speed limit law on occurrence of crashes, injury crashes, and fatal crashes on Utah highways
Donald D. Vernon, Lawrence J. Cook, Katharine J. Peterson and J. Michael Dean 223

The Manchester Driver Behaviour Questionnaire: a cross-cultural study
Timo Lajunen, Dianne Parker and Heikki Summala 231

The involvement of drugs in drivers of motor vehicles killed in Australian road traffic crashes
Olaf H. Drummer, Jim Gerostamoulos, Helen Batziris, Mark Chu, John Caplehorn, Michael D. Robertson and Philip Swann 239

Trends of behavioral risk factors in motor vehicle crashes in Utah, 1992–1997
Rebecca Smith, Lawrence J. Cook, Lenora M. Olson, James C. Reading and J. Michael Dean 249

Passenger seating position and the risk of passenger death or injury in traffic crashes
Kathleen M. Smith and Peter Cummings 257

Boarding and alighting injury experience with different station platform and car entranceway designs on US commuter railroads
Edward K. Morlok, Bradley F. Nitzberg and Lee Lai 261

Driver behaviour during flashing green before amber: a comparative study
H. Köll, M. Bader and K.W. Axhausen 273

A qualitative assessment methodology for road safety policy strategies
S.C. Wong, B.S.Y. Leung, Becky P.Y. Loo, W.T. Hung and Hong K. Lo 281

The fatality and injury risk of light truck impacts with pedestrians in the United States
Devon E. Lefler and Hampton C. Gabler 295

NUMBER 3

Papers

Visibility aids for pedestrians and cyclists: a systematic review of randomised controlled trials
Irene Kwan and James Mapstone 305

Estimating the risk of collisions between bicycles and motor vehicles at signalized intersections
Yinhai Wang and Nancy L. Nihan 313

The multidimensional driving style inventory—scale construct and validation
Orit Taubman-Ben-Ari, Mario Mikulincer and Omri Gillath 323

Risk factors affecting the severity of single vehicle traffic accidents in Hong Kong
Kelvin K.W. Yau 333

Using mobile telephones: cognitive workload and attention resource allocation
Christopher J.D. Patten, Albert Kircher, Joakim Östlund and Lena Nilsson 341

The effects of daylight and daylight saving time on US pedestrian fatalities and motor vehicle occupant fatalities
Douglas Coate and Sara Markowitz 351

Safety climate and safety performance among construction workers in Hong Kong. The role of psychological strains as mediators
Oi-ling Siu, David R. Phillips and Tat-wing Leung 359

Psychosocial correlates of the impact of road traffic accidents among South African drivers and passengers
Karl Peltzer and Walter Renner 367

In Australia are people born in other countries at higher risk of road trauma than locally born people?
Annette Dobson, Nadine Smith, Michael McFadden, Michelle Walker and Samantha Hollingworth 375

Quantifying the role of risk-taking behaviour in causation of serious road crash-related injury
Cathy Turner and Rod McClure 383

Sex and age distribution in transport-related injuries in Tehran
Bahman Sayyar Roudsari, Kaveh Sharzei and Moosa Zargar 391

Evaluation of effectiveness of safety seatbelt legislation in the United Arab Emirates
Mohammed El-Sadig, Mohammed Sarfraz Alam, Anne O. Carter, Khalid Fares, Hashel Obaid Salem Al-Taneuiji, Peter Romilly, J. Nelson Norman and Owen Lloyd 399

Self-reported injuries among seafarers. Questionnaire validity and results from an international study
Olaf C. Jensen, Jens F.L. Sørensen, Linda Kaerlev, M. Luisa Canals, Nebojša Nikolic and Heikki Saarni 405

Crash costs by body part injured, fracture involvement, and threat-to-life severity, United States, 2000
Eduard Zaloshnja, Ted Miller, Eduardo Romano and Rebecca Spicer 415

Aggressive driving: an observational study of driver, vehicle, and situational variables
David Shinar and Richard Compton 429

An investigation of factors reducing seat belt use amongst Spanish drivers and passengers on urban roads
M. Cunill, M.E. Gras, M. Planes, C. Oliveras and M.J.M. Sullman 439

Modeling rear-end collisions including the role of driver's visibility and light truck vehicles using a nested logit structure
Mohamed Abdel-Aty and Hassan Abdelwahab 447

Analysis and prediction of traffic fatalities resulting from angle collisions including the effect of vehicles' configuration and compatibility
Mohamed Abdel-Aty and Hassan Abdelwahab 457

Driving performance during concurrent cell-phone use: are drivers aware of their performance decrements?
Mary F. Lesch and Peter A. Hancock 471

The influence of passengers on the risk of the driver causing a car collision in Spain. Analysis of collisions from 1990 to 1999
Trinidad Rueda-Domingo, Pablo Lardelli-Claret, Juan de Dios Luna-del-Castillo, José Juan Jiménez-Moleón, Miguel García-Martín and Aurora Bueno-Cavanillas 481

Short communication

Primary enforcement seat belt laws are effective even in the face of rising belt use rates
Ruth A. Shults, Randy W. Elder, David A. Sleet, Robert S. Thompson and James L. Nichols 491

Viewpoint

The harm done by tests of significance
Ezra Hauer 495

NUMBER 4

Papers

Reducing the effects of driving fatigue with magnitopuncture stimulation
Zengyong Li, Kun Jiao, Ming Chen and Chengtao Wang 501

Acute healthcare utilization by children after motor vehicle crashes
Flaura K. Winston, Michael R. Elliott, Irene G. Chen, Edith M. Simpson and Dennis R. Durbin 507

Willingness-to-pay for reducing fatal accident risk in urban areas: an Internet-based Web page stated preference survey
Paula Iragüen and Juan de Dios Ortúzar 513

The effect of infrastructure and demographic change on traffic-related fatalities and crashes: a case study of Illinois county-level data
Robert B. Noland and Lyoong Oh 525

The impact of speed and other variables on pedestrian safety in Maine
Per E. Gårder 533

Does increased confidence among novice drivers imply a decrease in safety? The effects of skid training on slippery road accidents
Ari Katila, Esko Keskinen, Mika Hatakka and Sirkku Laapotti 543

A spatial and temporal analysis of safety-belt usage and safety-belt laws
Arnab Majumdar, Robert B. Noland and Washington Y. Ochieng 551

Bicycle-related head injury: a study of 86 cases
Bart Depreitere, Carl Van Lierde, Sigrid Maene, Christiaan Plets, Jos Vander Sloten, Remy Van Audekercke, Georges Van der Perre and Jan Goffin 561

An ecological study of the locations of schools and child pedestrian injury collisions
Elizabeth A. LaScala, Paul J. Gruenewald and Fred W. Johnson 569

Has the difference in accident patterns between male and female drivers changed between 1984 and 2000?
Sirkku Laapotti and Esko Keskinen 577

An evaluation of the effectiveness of forward facing child restraint systems
Kristy B. Arbogast, Dennis R. Durbin, Rebecca A. Cornejo, Michael J. Kallan and Flaura K. Winston 585

The influence of seatback characteristics on cervical injury risk in severe rear impacts
Roger Burnett, Jarrod Carter, Verne Roberts and Barry Myers 591

Typical patterns in road-traffic accidents during driver training. An explorative Swedish national study
Hans-Yngve Berg, Nils P. Gregersen and Lucie Laflamme 603

Estimating the safety performance of urban road transportation networks
Dominique Lord and Bhagwant N. Persaud 609

Factors associated with rear seating of children in motor vehicles: a study in two low-income, predominantly Hispanic communities
Jennifer Greenberg-Seth, David Hemenway, Susan S. Gallagher, Karen S. Lissy and Julie B. Ross 621

The actual threat posed by unrestrained rear seat car passengers
Jeremy Broughton 627

Psychoactive substance use and the risk of motor vehicle accidents
K.L.L. Movig, M.P.M. Mathijssen, P.H.A. Nagel, T. van Egmond, J.J. de Gier, H.G.M. Leufkens and A.C.G. Egberts 631

The mixed effects of precipitation on traffic crashes
Daniel Eisenberg 637

Urban/rural variation in children's bicycle-related injuries
Alison K. Macpherson, Teresa M. To, Patricia C. Parkin, Byron Moldofsky, James G. Wright, Mary L. Chipman and Colin Macarthur 649

The "genetics" of driving behavior: parents' driving style predicts their children's driving style
Alessandra Bianchi and Heikki Summala 655

Policy issues and risk–benefit trade-offs of 'safer surfacing' for children's playgrounds
David J. Ball 661

The effects of an edgeline on speed and lateral position: a meta-analysis
Cornelie J.G. van Driel, Ragnhild J. Davidse and Martin F.A.M. van Maarseveen 671

Scenario analysis of freight vehicle accident risks in Taiwan
Ming-Chih Tsai and Chien-Chih Su 683

Short communication

Are suicides by jumping off bridges preventable? An analysis of 50 cases from Sweden
Per Lindqvist, Anders Jonsson, Anders Eriksson, Annika Hedelin and Ulf Björnstig 691

Bibliographic section

Bibliographic section 695

NUMBER 5

Papers

Models relating traffic safety with road environment and traffic flows on arterial roads in Addis Ababa
Girma Berhanu 697

Sources of error in road safety scheme evaluation: a quantified comparison of current methods
W.M. Hirst, L.J. Mountain and M.J. Maher 705

Sources of error in road safety scheme evaluation: a method to deal with outdated accident prediction models
W.M. Hirst, L.J. Mountain and M.J. Maher 717

Effects of an active accelerator pedal on driver behaviour and traffic safety after long-term use in urban areas
András Várhelyi, Magnus Hjälmdahl, Christer Hydén and Magda Draskóczy 729

Prediction of accidents at full green and green arrow traffic lights in Switzerland with the aid of configuration-specific features
Markus Hubacher and Roland Allenbach 739

Warning signs as countermeasures to camel–vehicle collisions in Saudi Arabia
Ali S. Al-Ghamdi and Saad A. AlGadhi 749

Vehicle mismatch: injury patterns and severity
S. Acierno, R. Kaufman, F.P. Rivara, D.C. Grossman and C. Mock 761

Influences during adolescence on perceptions and behaviour related to alcohol use and unsafe driving as young adults
Pauline Gulliver and Dorothy Begg 773

Cost savings from a sustained compulsory breath testing and media campaign in New Zealand
Ted Miller, Michael Blewden and Jia-fang Zhang 783

Collisions and traffic violations of alcohol, cannabis and cocaine abuse clients before and after treatment
Scott Macdonald, Robert E. Mann, Mary Chipman and Kristin Anglin-Bodrug 795

Costs of large truck-involved crashes in the United States
Eduard Zaloshnja and Ted R. Miller 801

The life cycle of the policy for preventing road accidents: an empirical example of the policy for reducing drunk driving crashes in Taipei
Hsin-Li Chang and Chun-Chih Yeh 809

The effect of changing from secondary to primary safety belt enforcement on police harassment
David W. Eby, Lidia P. Kostyniuk, Lisa J. Molnar, Jonathon M. Vivoda and Linda L. Miller 819

Vehicle speed affects both pre-skid braking kinematics and average tire/roadway friction
Bradley E. Heinrichs, Boyd D. Allin, James J. Bowler and Gunter P. Siegmund 829

To what extent can theory account for the findings of road safety evaluation studies?
Rune Elvik 841

Work-related road fatalities in Australia
Rebecca Mitchell, Timothy Driscoll and Sandra Healey 851

An Australian experience with tractor rollover protective structure rebate programs: process, impact and outcome evaluation
Lesley Day, George Rechnitzer and Jonathan Lough 861

Bivariate ordered-response probit model of driver's and passenger's injury severities in collisions with fixed objects
Toshiyuki Yamamoto and Venkataraman N. Shankar 869

Perceptual and attentional effects on drivers' speed selection at curves
Samuel G. Charlton 877

Investigation of the driving experience of a sample of Victorian learner drivers
Warren A. Harrison 885

An evaluation of a supplementary road safety package
Jagadish Guria and Joanne Leung 893

Environmental factors associated with crash-related mortality and injury among taxi drivers in New South Wales, Australia
Lawrence T. Lam 905

Modeling of relative collision safety including driver characteristics
A.M. Vadeby 909

Raising the bar: can increased statutory penalties deter drink-drivers?
Suzanne Briscoe 919

Corrigendum

Corrigendum to: "Passenger carriage and car crash injury: a comparison between younger and older drivers" [Accident Analysis and Prevention 35 (6) (2003) 861–867]
Lawrence T. Lam, Robyn Norton, Mark Woodward, Jennie Connor and Shanthi Ameratunga 931

NUMBER 6

Papers

Freeway safety as a function of traffic flow
Thomas F. Golob, Wilfred W. Recker and Veronica M. Alvarez 933

Sensitivity to punishment and sensitivity to reward and traffic violations
Josep Castellà and Jorge Pérez 947

Ranking and selection of motor carrier safety performance by commodity
William C. Horrace and Thomas P. Keane 953

Comparison of reporting of seat belt use by police and crash investigators: variation in agreement by injury severity
Melissa A. Schiff and Peter Cummings 961

Rural and urban traffic fatalities, vehicle miles, and population density
David E. Clark and Brad M. Cushing 967

A spatially disaggregate analysis of road casualties in England
Robert B. Noland and Mohammed A. Quddus 973

Estimating the relationship between accident frequency and homogeneous and inhomogeneous traffic flows
Lena Winslott Hiselius 985

Some consequences of different older driver licensing procedures in Australia
Jim Langford, Michael Fitzharris, Stuart Newstead and Sjaanie Koppel 993

A two-step medically based injury surveillance system—experiences from the Oslo injury register
Johan Lund, Tor Bjerkedal, Hans Magne Gravseth, Kostas Vilimas and Ebba Wergeland 1003

Bayesian spatial and ecological models for small-area accident and injury analysis
Ying C. MacNab 1019

Effects of remote and in-person verbal interactions on verbalization rates and attention to dynamic spatial scenes
Leo Gugerty, Mick Rakauskas and Johnell Brooks 1029

Wertheim's hypothesis on 'highway hypnosis': empirical evidence from a study on motorway and conventional road driving
Gemma Pastor Cerezuela, Pilar Tejero, Mariano Chóliz, Mauricio Chisvert and M. José Monteagudo 1045

Impact of infrastructure and local environment on road unsafety. Logistic modeling with spatial autocorrelation
Benoît Flahaut 1055

Identifying predictors of persistent non-alcohol or drug-related risky driving behaviours among a cohort of young adults
Dorothy J. Begg and John D. Langley 1067

Crash reduction following installation of centerline rumble strips on rural two-lane roads
Bhagwant N. Persaud, Richard A. Retting and Craig A. Lyon 1073

An explorative study of the relationship between lifestyle and driving behaviour among young drivers
Mette Møller 1081

Effects of lowering the legal BAC to 0.08 on single-vehicle-nighttime fatal traffic crashes in 19 jurisdictions
Debra H. Bernat, William T.M. Dunsmuir and Alexander C. Wagenaar 1089

Long term medical costs of motor vehicle casualties in Alberta (1999): a population – based, incidence approach
Philip Jacobs, Douglas Lier and Donald Schopflocher 1099

Differences in safety belt use by race
Jonathon M. Vivoda, David W. Eby and Lidia P. Kostyniuk 1105

The burden of injuries in the Philippines: implications for national research policy
Rafael J. Consunji and Adnan A. Hyder 1111

Possible aggregation biases in road safety research and a mechanism approach to accident modeling
Gary A. Davis 1119

Spatial analysis of alcohol-related motor vehicle crash injuries in southeastern Michigan
Jaymie R. Meliker, Ronald F. Maio, Marc A. Zimmerman, Hyungjin Myra Kim, Sarah C. Smith and Mark L. Wilson 1129
